Construction & Interior Fit-Out

www.tjhall.co.uk

TJ Hall has over 30 years experience successfully delivering 'the perfect working environment' for our clients. The level of recommendations and repeat business is testimony to the successful relationships we have developed. These have been built on our customer service, quality of work and providing value for money. No project is too big or too small.

Operating in partnership with our clients has enabled us to develop an understanding of what drives their business so we can deliver the most cost effective solution that fulfills their needs. The benefit of this collaborative style has enabled us to develop a proactive, value-adding service giving clients peace of mind in our capability.

Our philosophy for achieving success is in the attention to detail. By listening to and evaluating our client's needs our motivated staff deliver projects to a carefully costed programme of work, on time, on budget and snag free.

Sustainability is rapidly becoming a driving force in the construction, refurbishment and fit-out arena. Recent innovations and new technologies help reduce the environmental impact and carbon footprints of today's buildings, allowing our clients to commission buildings that are carbon neutral and planet positive.

TJ Hall's extensive client list has been built on our reputation for delivery. Through word of mouth recommendation and referral we have established repeat business with public and private sector 'blue chip' clients such as:

- DHL
- Prologis
- Cosworth Racing
- Williams F1
- Carillion
- Sainsbury's
- Bodycote
- Endemol
- Interserve
- Fairline Boats
- TDX Group
- Buckingham Group
- MOD
- HM Prison Service
- Babcock Dyncorp
- Royal British Legion

Our continued success is down to the quality of service we provide, which is second to none, establishing a lasting professional relationship that clients can trust.

Whether you are looking to complete a new building, fit-out a bare shell, refurbishing your existing premises or simply adding additional storage facilities, TJ Hall can manage your project from start to finish often acting as the principal contractor.

We can offer a full 'Turn Key' capability or simply tailor our service to suit your needs.
