### KEY CHALLENGES

When Cosworth Motorsport needed their F1 build shop refurbishing, TJ Hall were proud to be appointed as the principal contractor. We were pleased to be recognised, by a world famous company renowned for precision engineering, as having the ability to deliver a high-spec fitting out programme to Cosworth's exacting standards. During the build we demonstrated the same elements of teamwork and precision required of an F1 racing team to complete the 14 week project on time and on budget. However, the most satisfying part of the job was being able to hand over the project to Cosworth knowing that we had met the company's exacting standards.
