KEY CHALLENGES

TJ Hall were proud to be appointed principle contractor when DHL acquired the leasehold of a 77,730 ft² (7,221m²) building shell on a secure site location close to Heathrow Airport. TJ Hall were contracted to design and deliver an extensive interior fit-out including office space, computer rooms and staff welfare facilities. TJ Hall also constructed an additional gatehouse with security camera suite and digital controlled door access systems as part of the project. The ability to work flexibly within the constraints of a secure site enabled the delivery of this “fast-track” 16-week programme, on time, and on budget to DHL’s complete satisfaction.
