

## Case Study

### G4S Group for Secure Government Agency Site

Contract Value: £2.65m

T J Hall were proud to be asked by Savills & G4S to be part of a Secure Government Agency project, this was for a repeat business ultimate client. The project provided many challenges that T J Hall were able to work through, by working closely with all parties. One of the major issues was that this was a live site and the work of the agency had to continue around the clock for the thirty-two weeks that we were on site.

#### Turnkey Works Included

- Installation on External Security Measures
- Installation of Vehicle Mitigation Bollards
- High tensile rope wire to withstand 100 tonnes psi????
- Major Structural Alterations Civil and Groundwork
- Additional Lighting and Lighting Stands
- Amendments to Secure Fence Line
- Additional CCTV
- Installation of External Generator bases
- Extra Car Parking Areas
- Extensive Traffic Management

Working closely with the client and the client's agent, a range of traffic management systems were installed, which always allowed the staff to be able to access the site. T J Hall were asked to price significant additional work following the successful completion of this project. The T J Hall Team worked tirelessly, in an environment with very demanding security procedures and protocols, to once again deliver for the client.

Creating the **perfect**  
working environment
